

# A FIVE-STEP GUIDE FOR SUCCESSFUL ANALYTICS OPERATIONS

## LEADERSHIP COMMITMENT

Commit to the long-term performance and extensibility of your analytics approach.

## BUILD THE RIGHT TEAM

Assemble a talented, committed team of data architects, developers, stewards, and subject matter experts.

## EFFECTIVE PARTNERSHIPS

Establish consistent communication and processes so IT can apply technology pragmatically and effectively.

## INTEREST AND BUY-IN

Realize the potential of your analytics approach by generating interest and getting buy-in among clinical data users.

## MAINTAIN SUCCESS

Prioritize work, monitor performance, and create sustainable, supportable controls to avoid repeating past mistakes.
