

“
We take care of our
patients as people first.

Lisa Fort, MD
Emergency Services

- › Develop analytic support and applications to give faster access to valid and actionable data
- › Deployment
 - › Use Agile methodology to deliver rapid time-to-value analytics application development and implementation
 - › Provide education, training, and support to ensure clinician buy-in and adoption
 - › Leverage the EMR to provide decision support through order sets, protocols, and alerts

The clinical implementation teams execute this care transformation model effectively through training and support.

UNPRECEDENTED TJC RECOGNITION FOR METHODOLOGY AND IMPROVEMENT RESULTS

During its recent TJC survey, Thibodaux Regional shared its quality improvement methodology and improvement team results. The upshot of all this hard work? Thibodaux Regional received unprecedented approval from the surveyors. At the executive briefing, which is part of the survey, TJC commented:

“This is the most sophisticated and comprehensive system I have ever seen... [Thibodaux Regional’s methodology] is a best practice in how to use data and get physicians engaged.”

WHAT’S NEXT

With a realistic and effective improvement model led by its CEO and implemented by capable teams, Thibodaux Regional is applying care transformation to sepsis, acute myocardial infarction, and colon oncology. 🌊
